

Non-Penetrating Antenna Roof Mount - Rubber Mat

KPPA-NPM-MAT

Features

- 3/16" thick high density rubber
- Placed directly on the roof
- Improves surface tension
- Reduces imprints or cuts to the roof surface
- Weather resistant for long-lasting performance

Applications

- De-centralized wireless networks (FreedomFi, Helium, POLLEN, XNET, MetaBlox, etc.)
- Wireless or satellite antenna
- Scientific and weather instrumentations
- Security camera and instruments
- Solar panel
- WISP (Wireless Internet Service Provider)

Description

The KP Performance KPPA-NPM-MAT non-penetrating antenna roof mount rubber mat reduces cuts or imprints on the roof surface while offering maximum surface tension. The NPM rubber mat is 3/16 inches thick measuring 39 inches wide by 39 inches long.

This KPPA-NPM-MAT non-penetrating antenna roof mount rubber mat offers a protective layer between the roof surface and non-penetrating mounts and is weather resistant for long-lasting performance. Peak roof mounts require two (2) mats, while flat roof mounts just need one (1) mat. The ergonomic benefits of this rubber mat include its ability to prevent surfaces from being scratched, marred, or gouged.

KP Performance has one of the largest in-stock selection of non-penetrating antenna roof mount rubber mat for international and domestic orders. Make your online purchase right now to take advantage of our same-day shipping. For further information on similar products, our expert technical support and knowledgeable sales team can help you get the perfect non-penetrating antenna roof mount rubber mat for your requirements.
